# PURPOSE

- The Measuring Canadian Travel Patterns dashboard created by Environics Analytics helps the Canadian travel and tourism industry understand the impact of the worldwide COVID-19 pandemic as it relates to *Domestic Overnight Visitors* within Canada, its **provinces, territories, and tourism regions**.
- With this dashboard we can easily compare visitors; travel patterns (to prior weeks in 2020 and year over year 2019). We can also compare different regions to assess the impact of the pandemic on Canadian travel patterns and identify when visitors start to return to British Columbia's respective tourism regions.

## METHODOLOGY

- Environics Analytics uses privacy compliant, anonymized mobile movement data to identify devices whose **Daily Common Evening Location** is 60 km or more away from their *Yearly Common Evening Location*.
- Data is aggregated and compared on a weekly basis versus the previous year and week.
- Data is limited to devices that we can reliably infer their *Daily* and *Yearly Common Evening Locations*.
- Data has been standardized and normalized leveraging demographic data and PRIZM, their neighbourhood classification system.

# GLOSSARY

- **Timeframe:** The dashboard data starts the week of February 4<sup>th</sup>, 2020 and is tracked on a weekly basis. Data is currently available through to July 19<sup>th</sup>, 2020.
- **Domestic Overnight Visitors:** A device that spent at least one night more than 60KM away from their Yearly Common Evening Location.
- **Common Evening Location:** A location where the device is normally seen between 6PM and 8AM the following morning.

# INTRODUCTION

- The Weekly Tourism Tracker filters data by Canada, Province or Territory. **R1** or Region 1 is selected by choosing a flag or by selecting a Province from the **R1** drop down menu. *R1 can also be a Region.*
- **R2** or Region 2 compares the weekly data by Province and Region.
- **BC Regions:**
  - Cariboo Chilcotin Coast
  - Kootenay Rockies
  - Northern B.C
  - Thompson-Okanagan
  - Vancouver Island
  - Vancouver Coast and Mountains
